5. Quality of execution summary

The summary below is applicable to all groups of financial instruments offered by the Company.

5.1. Execution factors

When executing clients' orders the Company takes into consideration the following execution factors:

- a) Price;
- b) Cost;
- c) Speed of execution;
- d) Likelihood of execution;
- e) Likelihood of settlement;
- f) Size of Order;
- g) Nature of Order; and
- h) Market Impact.

The Company acts as in accordance with its Order Execution Policy and executes Orders by taking into consideration all of the above factors giving, however, primary consideration to the price, cost and speed of execution.

5.2. Close links / conflicts of interest / common ownership

The Company does not have any close links, conflicts of interests with any execution venues used to execute orders.

There are no specific arrangements with any execution venue regarding payments made or received, discounts, remuneration, rebates, non-monetary benefits or other incentives that may influence the Company to use one execution venue over another.

5.3. Change in the list of execution venues

With the implementation of MiFID II, an overall review of the list of venues was completed in line with the review of the Order Execution Policy, with the list of venues to be reviewed on an ongoing basis. Order Execution Policy has continued to see changes in 2022 and was updated to reflect changes to the list of brokers and venues used for orders transmission and execution.

5.4. Order execution per client categorization

In 2022 the Company executed orders for professional clients and eligible counterparties only, therefore the Company did not assess whether executing client Orders or receiving and transmitting Orders on behalf of Retail Clients receive the same treatment as Professional Clients.

5.5. Precedence of other criteria over price and cost

Other criteria over price and cost may have been used if a Client provided specific criteria to the Order.

5.6. Data analysis

The Company has not used regulatory quality of execution reports (RTS 27) for assessment of execution venues. When assessing the quality of execution the Company utilizes the following available tools and data in order to ensure the best possible result for the Client:

- Real time monitoring of markets, price, time to market;
- Broker & service quality controls;
- Client feedback.

5.7. Usage of output of a consolidated tape provider

The Company has not used output of a consolidated tape provider established under Article 65 of Directive 2014/65/EU ("MiFID II")
